PROFESSIONAL SUMMARY

Detail-oriented and adaptable Backend Developer with hands-on experience building robust, scalable web applications using Python and JavaScript ecosystems. Proficient in designing secure RESTful APIs, managing both relational and NoSQL databases (MySQL, MongoDB), and optimizing server performance utilizing Redis caching strategies. A collaborative team player adept at working with front-end developers to integrate server-side logic with user-facing elements, backed by a strong commitment to clean, modular code and continuous learning.

SKILLS

- **Languages:** Python, JavaScript
- **Frameworks & Libraries:** Django, Django REST Framework, Flask, FastAPI, Node.js
- **Databases:** MySQL, MongoDB, Firebase
- **Tools & Technologies:** Redis (Caching), RESTful APIs, Unit/E2E/Integration Testing, Flutter flow
- **Soft Skills:** Analytical Thinking, Continuous Learning, Effective Team Collaboration, Problem Solving, Adaptability, Code Reviewing

PROFESSIONAL EXPERIENCE

Backend Developer | Tech Crush Bootcamp

Sep 2025 – Nov 2025

- Collaborated with a team of developers to design, develop, debug, execute, and refactor modular code programs written in JavaScript.
- Leveraged Node.js to create RESTful APIs for a nutrition web application, facilitating seamless data exchange and feature implementation.
- Implemented caching strategies effectively utilizing Redis to optimize application performance and reduce load times.

- Managed relational databases using MySQL to ensure data integrity and reliable data storage.
- Created, tested, and secured APIs following industry best practices.
- Participated actively in routine code reviews to maintain code quality and contribute to the continuous improvement process.
- Partnered with front-end developers, product managers, and other team members to seamlessly integrate user-facing elements with server-side logic.

Associate Backend Developer | Jamor Technology

Aug 2024 – Jan 2025

- Designed, developed, debugged, executed, and refactored robust backend systems using Python 3.
- Utilized the Django framework to import and apply structured modules and packages, significantly reducing development and work time.
- Implemented Redis caching strategies to enhance system response times and overall scalability.
- Handled database management, structuring, and complex queries using MySQL.
- Built, tested, and secured high-performance APIs utilizing FastAPI.
- Collaborated effectively within a cross-functional agile team environment to achieve project milestones.
- Participated in code reviews to ensure adherence to best coding practices and foster a culture of continuous learning.

CERTIFICATIONS & TRAINING

- **Backend Development Training** | Tech Crush Academy (*Accredited by ACTD*) – Nov 2025
- **Certified Associate in Python Programming (PCAP)** | Cisco Networking Academy – May 2024
- **Entry-Level JavaScript Development** | FreeCodeCamp – May 2024
 - *Focus: APIs, SQL & MongoDB Database Management, Redis Caching, and Software Testing (Unit, E2E, Integration).*
- **Certified Entry-Level Python Programmer (PCEP)** | Cisco Networking Academy – Feb 2024
- **Django (MVT) Training** | GeeksforGeeks Tutors – Feb 2024
- **No-Code Web Application Development** | Ingressive for Good (I4G) – Dec 2023
